Via Nizza 52

10126 Torino

5th Workshop SIB group “Tumor Biochemistry”

Is cancer an inaccessible fortress?

Exploiting tumor Achille’s heels to foster treatment opportunities

Monday, 9th June

9.00-11.00: Registration of Participants

11.00-11.30: Institutional Greetings

Opening lecture

11.30-12.15: Alberto Bardelli (IFOM ETS - The AIRC Institute of Molecular Oncology, Milano, Italy; Department of Oncology, University of Torino, Italy)

12.15-13.30: Welcome light lunch and poster mounting

Session I: Hit cancer cells to the heart: overcoming organelles and pathway dysfunctions to improve treatments efficacy

13.30-14.00: Sirio Dupont (University of Padova)

14.00-14.15: selected talk 1 (12 minutes+ 3 minutes question/each)

14.15-14.30: selected talk 2

14.30-14.45: selected talk 3

14.45-15.00: selected talk 4

15.00-15.15: selected talk 5

15.15-15.45: speedy talk sections (5 talks of 5 minutes + 1 question/each -> reserved to under 35 researchers) or technical talks (companies)

15.45-16.15: Elisa Giovannetti (Amsterdam Medical University)

16.15-16.45: coffee break and poster viewing

Session II: Epigenetics and cancer metabolism: a complex interplay

16.45-17.15: Sara Sdelci (Centre for Genomic Regulation, Barcelona)

17.15-17.30: selected talk 6

17.30-17.45: selected talk 7

17.45-18.00: selected talk 8

18.00-18.30: speedy talk sections (5 talks of 5 minutes + 1 question/each -> reserved to under 35 researchers) or technical talks (companies)

18.30: conclusion of day 1

Social dinner (20.30)

Tuesday, 10th June

Session III: Metabolic vulnerability in cancer cells: how to transform cancer stratagems into therapeutic opportunity

9.00-9.30: Cyril Corbet (UCLouvain, Institut de Recherche Expérimentale et Clinique, Brussels, Belgium; WEL Research Institute, Wavre, Belgium)

9.30-9.45: selected talk 9

9.30-9.45: selected talk 10

9.45-10.00: selected talk 11

10.00-10.15: selected talk 12

10.15-10.30: selected talk 13

10.30-11: Saverio Tardito (Center for Cancer Research, Medical University of Vienna, Austria)

11.00-11.30: coffee break and poster viewing

Session IV: Understanding and disrupting the bad liaisons between cancer cells and its microenvironment

11.30-12.00: Giulia Biffi (CRUK, University of Cambridge)

12.00-12.15: selected talk 14

12.15-12.30: selected talk 15

12.30-12.45: selected talk 16

12.45-14.00: Lunch and poster viewing

Session V: Using the right models and the right tools to beat cancer: mission possible?

14.00-14.30: Antonio Celani (SISSA Trieste)

14.30-14.45: selected talk 17

14.45-15.00: selected talk 18

15.00-15.15: selected talk 19

15.15-15.30: selected talk 20

15.30-16.00: Giuseppe Ferrauto (University of Torino)

16.00-16.30: Award ceremonies and closing remarks

16.30: Meeting closure
